# POOL SURROUNDS

Exotic Landscapes offers an exquisite selection of pool surround options, with a focus on the use of premium natural stone. Our expertise in natural travertine, available in luxurious shades of ivory (pictured), latte, and silver, allows us to craft timeless designs in both the refined French Pattern and classic square formats.

As a fully licensed provider, we ensure the highest standards. We specialize in enhancing your outdoor environment with elegant, built-in low voltage lighting systems that can be effortlessly controlled via your smartphone, adding a touch of modern convenience to your serene outdoor retreat.

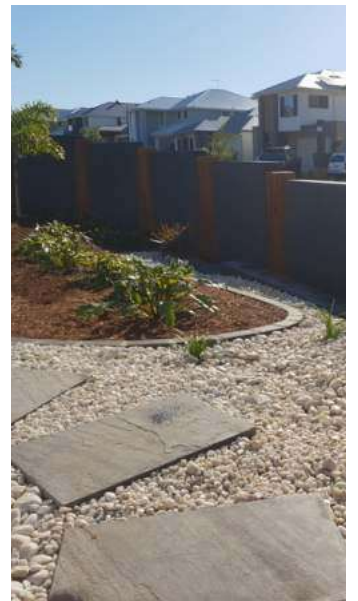

## PAVING, PATHS & STAIRS

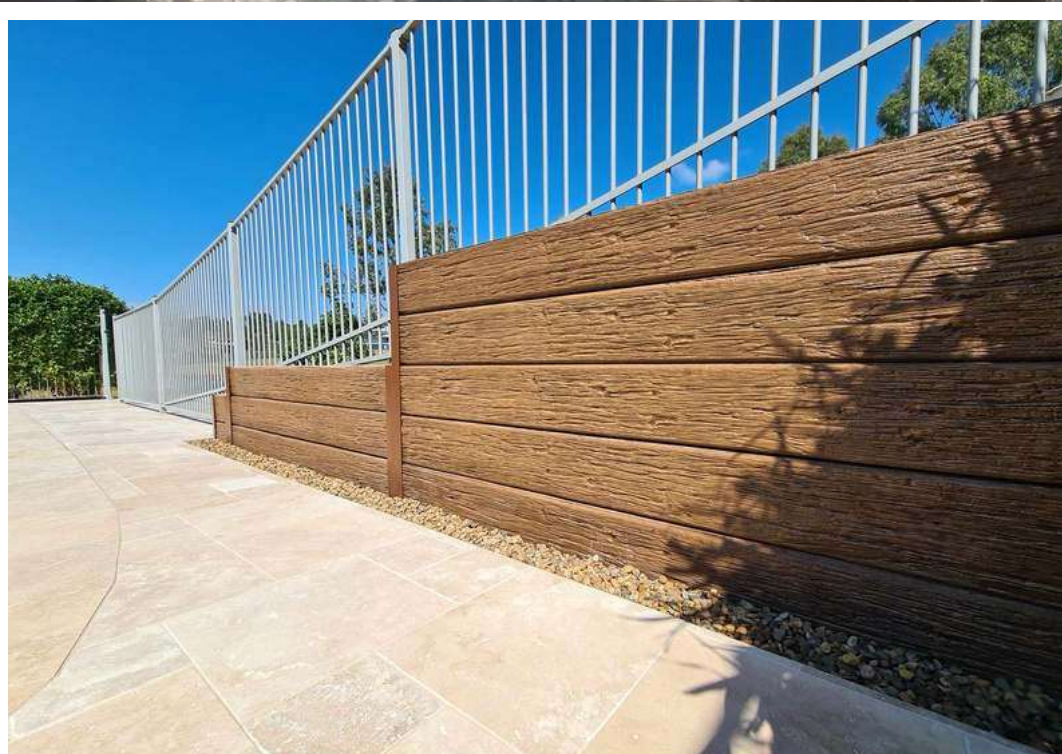

---

Exotic Landscapes takes pride in offering an array of paving and pathway solutions, designed to elevate your outdoor space. Whether you're envisioning stunning cobblestone pathways, elegant stepping stones, or elegant entertainment areas, our expertise ensures that your vision is brought to life.

We also specialize in designing and constructing bespoke stairs that provide seamless access through any terrain. Our experience spans the use of exquisite materials, from beautiful timber to durable concrete, which can be elegantly clad with a variety of paving options, creating a cohesive and refined aesthetic throughout your landscape.

# RETAINING

---

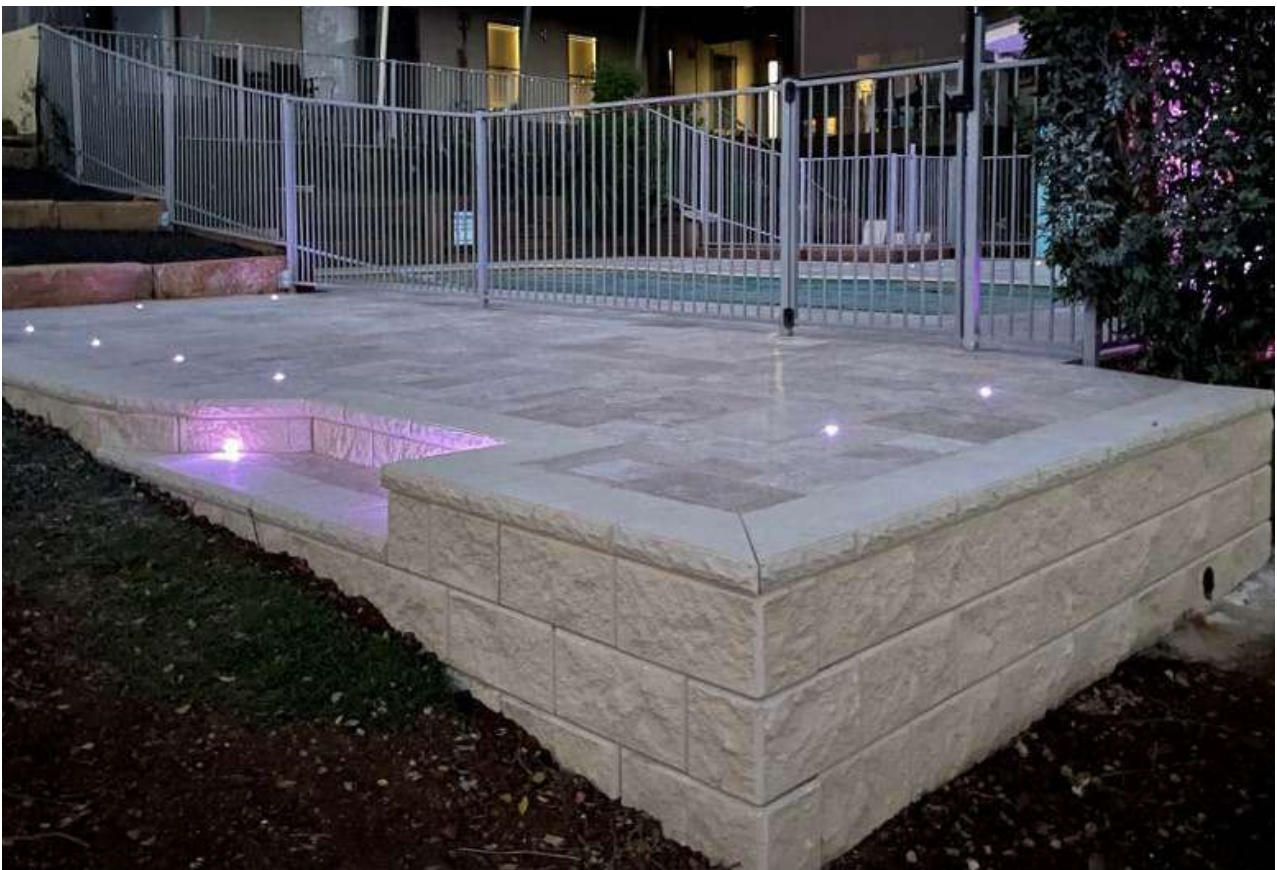

At Exotic Landscapes, we are committed to using long-lasting materials that ensure enduring beauty and value. That's why we strongly recommend concrete sleepers whenever possible.

Why choose concrete?

Unlike wood sleepers, which are prone to rot and require frequent replacement, concrete is designed for longevity, offering a far greater return on your investment.

What are your options?

For those seeking space-efficient solutions, we offer concrete sleepers which include sophisticated shades of mocha or charcoal, available in both timber-look and plain finishes. Additionally, we provide alternatives such as Rendered Besser blocks, and trend stone among many other options options, allowing you to select the perfect materials to complement your outdoor space.

# FENCING

At Exotic Landscapes, we provide a diverse selection of fencing styles to suit your needs and aesthetic preferences.

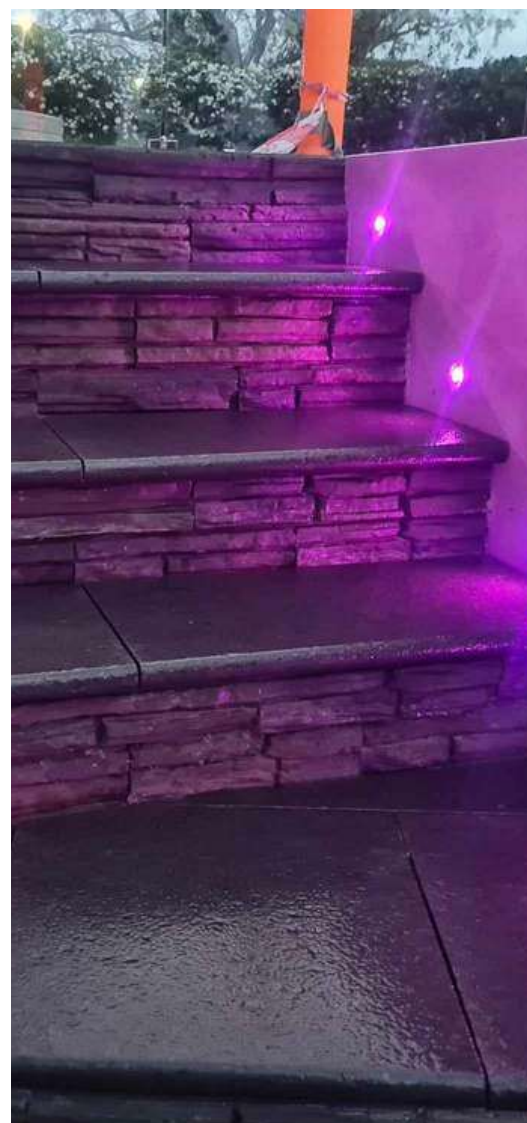

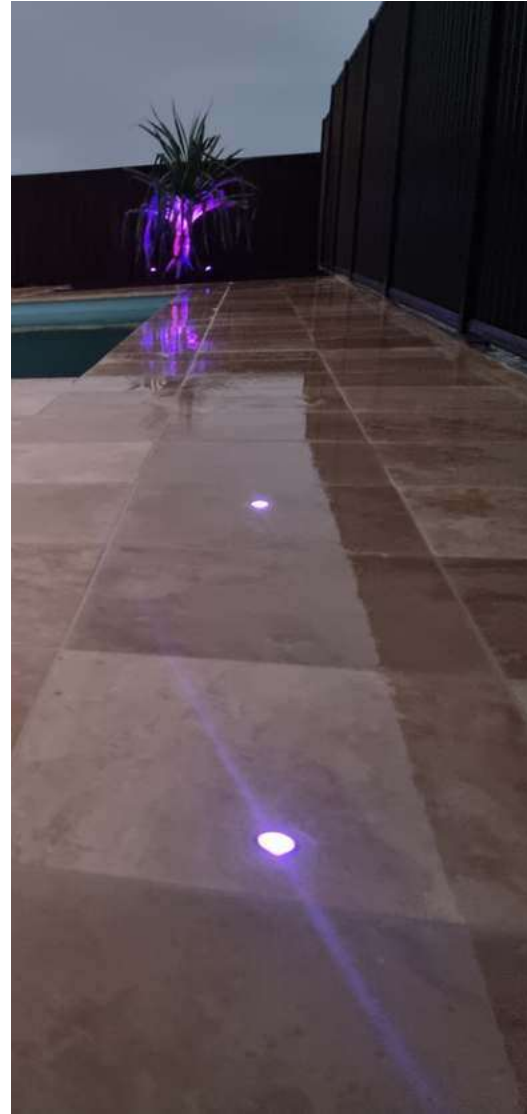

**Timber:** Our range of timber fencing includes everything from classic colonial designs to simple, neighbor-friendly options, ensuring both beauty and functionality.

**Besser Block:** For those seeking a sleek statement feature, our Besser Block fencing offers stunning street appeal, combining elegance with durability.

**ColorBond:** For long-lasting, low-maintenance fencing, we recommend our ColorBond solutions, renowned for their resilience and timeless style.

## CUSTOM ITEMS

---

Exotic Landscapes elevates your outdoor space with bespoke designs and luxury enhancements, tailored to your unique vision.

Our expertise extends to custom-crafted arbors, elegantly designed fence and gate panels, sophisticated in-built lighting, and efficient automatic watering systems, among many other personalized features. Each project is meticulously designed to exceed your expectations, adding an unparalleled level of refinement and convenience to your landscape.

These are just a few examples of the custom projects we've recently brought to life, each showcasing our commitment to quality, detail, and timeless elegance.

## TURF & GARDENS

---

To perfect your slice of paradise, no outdoor space is complete without lush, vibrant gardens. At Exotic Landscapes, we take pride in bringing your landscape to life.

To elevate your garden areas, we incorporate sophisticated garden edging, carefully selected plants, and premium turf.

For those seeking low-maintenance options, we offer the installation of high-quality synthetic turf and state-of-the-art automatic watering systems, ensuring your garden remains effortlessly beautiful year-round.

## WATER TANKS & DRAINAGE

---

At Exotic Landscapes, we offer expert installation of water tanks and drainage solutions, seamlessly integrating them into your outdoor space. Our approach ensures efficient water management while maintaining the elegance of your landscape. Whether you're looking to conserve water with discreetly placed tanks or need advanced drainage solutions to protect your property, we provide tailored systems that combine functionality with sophisticated design.

# PRICING

Quoting for all projects is a highly individualized process. As such, in person quotes must be organized, there is no fee involved in receiving a quotation.

To ensure a quality result every time, Our team seeks only the most trusted and high-end materials. Over the many years in business we have created lasting relationships with local suppliers, and always seeks to get the best deal for our clients.

When your quote is ready you will receive an email with a quote. When we receive confirmation that you have accepted the quote, we will contact you to pencil in tentative dates. Please note at this stage, dates may change due to weather or extenuating circumstances. We will contact you again to confirm the start date, and provide you with a contract. This contract keeps everyone safe and outlines payment terms.
